MEMORANDUM FOR: Director of Security
SUBJECT : Office of Security Monthly Report of
Trends and Highlights for July 1974

1. Attached is the Office of Security Monthly Report of Trends and Highlights for July 1974.

2. Although no significant trend is indicated at this time, there was a slight increase in total case receipts in July 1974 over June 1974. This was offset, however, in terms of expendable effort, by a decrease of approximately 100 cases [REDACTED] 25X1A

3. The month of July was unique in the unusually large number of cancellations of requests for [REDACTED] support. This was due either to changes in political climate or last minute changes in agent schedules. Unfortunately, considerable time had been consumed in preparation for this support before the cancellations became known. 25X1A

4. The first truly comparable statistics were available this month for microfiche activities in terms of the same number of assigned man-years. One hundred and twenty-two (122) percent more pages were prepared and filmed in July 1974 than were in July 1973. This represented processing 1701 pages a day as compared to processing 803 pages a day in July 1973.
